## Long Distance Policy

International long-distance rates, discounts, and the availability of calling exchanges are contingent on the services offered by foreign telecommunications companies. Please be aware that International Long Distance rates are subject to change without prior notification. When it comes to international calls, the minimum chargeable duration is 60 seconds, and the minimum increment for billing is also 60 seconds. Prior to placing a long-distance call, we recommend reviewing our most up-to-date rates on our website.
